treaty to the Senate. Gen. Hayes is still here, and he hopes to accomplish something before the week is out.

The Republican leaders in both branches of Congress, including all of the "big six" of the Senate, go into the new session of Congress with a determination to sincerely support the administration. That means that whether they are with the President or not, he is the leader of the party, and must be sustained. Speaker Cannon has developed into the strongest administration leader in the other branch, and has expressed his personal opinion that he is in the lead in the cause of the administration.

Frye was offered by the Rev. J. Pretyman. The roll was called, and sixty-seven Senators having responded, Mr. Frye announced that a quorum was present. Resolution were offered and agreed to as follows:

By Mr. Platt of Connecticut, fixing the daily meeting hour at 12 o'clock; Mr. Teller, for committee to inform the House of a forum in the Senate was present; by Mr. Hale, that a committee of two Senators be appointed to join a like committee from the House to consider Postmaster-General's nomination.

A bill and petition were presented.

Mr. Hoar suggested that it was time to adjourn, so the Senate voted to adjourn.

Mr. Barnes, assistant secretary to the President, then presented the Finance Committee.

The bill of a special appropriation for an additional five members of Congress amounting to more than \$15,000, will be opposed by the majority members of the Finance Committee of the Senate, should such a measure come from the House.

Mr. Allison thinks that such an appropriation is necessary, while the precedents may be, it does not represent expenses actually incurred by the Senators and Representatives in traveling, as the extra session merges into the regular.

Speaker Cannon is also opposed to this appropriation, and the leaders in both houses think it will be bad politics to vote an extra mileage "crash" on the eve of a national election. It will be playing, they say, into the hands of the minority, and give them an opportunity to make an issue.

Whether the leaders can hold the rank and file of the Senate and House on this issue remains to be seen, and some of them think it is doubtful whether the members will refuse to vote themselves the money which they think belongs to them.

Senator Hanna is marching his forces for the last onslaught against Gen. Edward Wood as major-general. He hopes the attack will be successful and the defeat of Gen. Wood assured within a week.

TRENT NOT REFERRED.

WASHINGTON, Dec. 7.—The Pan-

ama Canal treaty was sent to the Senate today but as there was no motion to consider it after its receipt, it was not referred to the Committee on Foreign Relations.

SENATE AND HOUSE.

TWO PRAYERS AND MESSAGE.

BY THE ASSOCIATED PRESS-P.M.

WASHINGTON, Dec. 7.—The Senate today closed the extraordinary session and entered upon the regular session, but the transition was so natural as to be scarcely noticeable.

The unusual features were the close of the called session by the announcement from the chair and the offering of two prayers within half an hour of each other. The business session consisted of the reading of the President's message, and at the beginning of the discussion of the Cuban Reciprocity Bill. Mr. Cullom, who has charge of the Cuban bill, made a speech advocating its passage in the interest of America.

The House convened today in regular session and listened to the reading of the President's annual message to Congress. The special session robbed the day of many interesting features incident to a new Congress.

The floor having organized four weeks ago, the session of opening day comprised merely a roll-call to develop the presence of a quorum and the customary notification to the President and to the Senate. No reference was made to the special session.

MORE THAN AN HOUR AND A HALF

was consumed in the reading of the President's message, at the conclusion of which there was general applause on the Republican side of the chamber.

A considerable amount of routine matters necessary to facilitate the work of committees was transacted before the adjournment.

At 2:30 o'clock the House adjourned out of respect to Henry Burke of Pennsylvania, a member who died Saturday.

FIFTY-EIGHTH CONGRESS.

REGULAR SESSION.

BY THE ASSOCIATED PRESS-A.M.

WASHINGTON, Dec. 7.—SENATE.

The first regular session of the Fifty-eighth Congress began at noon today, but the Senate met half an hour previous to that time in accordance with the adjournment of Saturday last for the purpose of permitting an orderly termination of the called session. The fact that the Senate adjourned without the effect of robbing the first day of the regular session of many of the features which usually characterize a first day, but there were still some of the usual indications, the principal one of which was the attendance of the public. The galleries were by no means crowded, but there was a larger attendance than usual and there was an air of expectancy which is noticeable only on unusual occasions.

The major portion of the half-hour sitting of the extra session was devoted to the reading of the President's message, but before the hour was up, the doors were closed. The Senate passed a bill amending the law relative to Congressional franks.

The motion for an executive session was made by Mr. Allison, who stated that there was some business necessary to transact behind closed doors before the termination of the called session. The motion prevailed, and at 11:40 o'clock this executive session began.

After the doors were closed Senator Platt of Connecticut requested the Senate to adjourn the favorable consideration of a resolution of thanks to Senator Frye, for the courteous manner in which he has presided over the Senate.

The resolution was offered by Mr. Gorman.

Mr. Keen made a favorable report from the Committee on Contingent Expenses on the resolution of Mr. Keene, requesting the transmission to the Senate by the Postmaster-General of all the bills relating to the post office investigation.

Mr. Gorman objected to the present consideration of the resolution, and it went to the calendar.

A favorable report was made by Mr. Burton from the Committee on Post-

Reserves and the Protection of Game on a bill creating "the National Appalachian Forest Reserve."

Mr. Frye then took the chair, at 12 o'clock, and announced that the hour had arrived for the opening of the first regular session of the Fifty-eighth Congress having arrived. "I declare the extraordinary session adjourned without day."

Frye was offered by the Rev. J. Pretyman. The roll was called, and sixty-seven Senators having responded,

Mr. Frye announced that a quorum was present. Resolution were offered and agreed to as follows:

By Mr. Platt of Connecticut, fixing the daily meeting hour at 12 o'clock; Mr. Teller, for committee to inform the House of a forum in the Senate was present; by Mr. Hale, that a committee of two Senators be appointed to join a like committee from the House to consider Postmaster-General's nomination.

A bill and petition were presented.

Mr. Hoar suggested that it was time to adjourn, so the Senate voted to adjourn.

Mr. Barnes, assistant secretary to the President, then presented the Finance Committee.

The bill of a special appropriation for an additional five members of Congress amounting to more than \$15,000, will be opposed by the majority members of the Finance Committee of the Senate, should such a measure come from the House.

Mr. Barnes thinks that such an ap-

propriation is necessary, while the precedents may be, it does not represent expenses actually incurred by the Senators and Representatives in traveling, as the extra session merges into the regular.

Speaker Cannon is also opposed to this appropriation, and the leaders in both houses think it will be bad politics to vote an extra mileage "crash" on the eve of a national election.

Mr. Barnes thinks that such an ap-

propriation is necessary, while the precedents may be, it does not represent expenses actually incurred by the Senators and Representatives in traveling, as the extra session merges into the regular.

Mr. Barnes suggested a number of amendments, the effect of which was to make it mandatory for the committee to make an investigation into postal office affairs and to compel the committee to report to the Senate by May 1 next.

Mr. Barnes, as author of the resolution and chairman of the committee, indicated a willingness to accept the amendment, but Mr. Platt of Connecticut objected.

Mr. Platt said that, as originally introduced, the resolution left it open to the committee to make an investigation if it thought necessary after hearing Gen. Bristol's report. That he thought was just what he would do. To make it clear, he said, he would not oppose the amendment.

After some informal discussion the resolution was laid over until tomorrow, and Mr. Cullom began a speech on the Cuban Reciprocity Bill. He dwelt especially on the effect of the bill in trade with Cuba, which he said would be greatly stimulated by its passage.

PRESIDENT'S MESSAGE TO THE CONGRESS.

Nation Has Achieved Substantial Progress at Home and Abroad.

Interstate Commerce Commission's Work Great; Forwards—Corporations and Labor Unions Must Reckon With the Government in Any Lawless Course—Panama Revolution and the Canal Treaty.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Dec. 7.—To the Senate and House of Representatives:

The country is to be congratulated on the amount of substantial achievement which has been made the past year both at home and abroad and as regards our domestic policy. With a nation, as with man, the most important things are those of household, and in this the country is especially to be congratulated on what has been accomplished in the direction of providing for the welfare of corporations and combinations of corporations engaged in interstate commerce. The Congress has created the Department of Commerce and Labor, including the Bureau of Corporations, with for the first time authority to secure proper publicity of such proceedings; the great corporations of the public have the right to know; it has provided for the expediting of suits for the enforcement of the Federal anti-trust law; another law has been adopted treating all oil producers in the transportation of their goods, thus taking a long stride forward in making effective the work of the Interstate Commerce Commission.

The establishment of the Department of Commerce and Labor, with the Bureau of Corporations, is the direction of doing all that is possible for the solution of the questions vitally affecting capitalists and wage workers. The amendment to the bill was approved February 14, 1902, and two days later the head of the department was nominated and confirmed by the Senate. Since that time the legislation has been pushed as rapidly as the initial appropriations permitted, and with due regard to thoroughness and economy. Meanwhile, they are being administered with judicious insistence upon obedience to them; and their need has been emphasized in six instances by the events of the past year.

GOVERNMENT'S RECEIPTS.
From all sources, exclusive of the postal service, the receipts of the government for the last fiscal year aggregated \$260,356,674. The expenditures for the same period were \$266,099,007, the surplus for the fiscal year being \$6,242,597. The indications are that the surplus for the present fiscal year will be very small, if indeed there be any at all.

From June 1, 1902, to date, receipts from customs were approximately nine million dollars less than the imports from the same source for the corresponding period of the previous year. Should this decrease continue at the same ratio throughout the fiscal year, the surplus would be reduced by approximately one million dollars. It is conceivable that the amount of imports through the prostitution of the high right and calling of citizenship. It would be more sensible to become citizens of the United States and in the process no loophole whatever should be left open to fraud.

BUREAU OF CORPORATIONS.
The preliminary work of the Bureau of Corporations in the department has shown the wisdom of its creation. Publicity in corporate affairs will tend to do away with ignorance, and will afford the public a better knowledge of what may be taken. Systematic intelligent investigation is already developing facts the knowledge of which is essential to the proper conduct of business.

The corporation which is honestly and fairly organized, whose managers in the exercise of its functions, discharge their obligation to deal squarely with their stockholders, their competitors, and their public, has nothing to fear from such surveillance. The purpose of the bureau is not to prohibit or restrain legitimate business, but to aid in bringing about a better industrial condition under which there shall be public justice and recognition of public obligation by all corporations, great or small. The Department of Commerce and Labor will be in a position to furnish the public information regarding the business transactions of the nation, but the executive arm of the government, to aid in bringing about a better industrial condition under which there shall be public justice and recognition of public obligation by all corporations, great or small.

The Department of Commerce and Labor will be in a position to furnish the public information regarding the business transactions of the nation, but the executive arm of the government, to aid in bringing about a better industrial condition under which there shall be public justice and recognition of public obligation by all corporations, great or small.

The integrity of our currency is beyond question, and under present conditions it would be unwise and unnecessary to attempt a reconstruction of our entire monetary system. The same liberty should be granted the Secretary of the Treasury to reconstruct currency as is granted him in the deposit of receipts from other sources.

In my message of December 2, 1902, I directed the Secretary of the Treasury to consider the question of the financial situation, and I again ask the consideration of the Congress for these questions.

During the session of the Congress at the suggestion of a joint note from the Republic of Mexico and the Imperial Government of China, and in harmony with an act of the Congress, the Secretary of the Treasury has appropriated expenses thereof, a commission was appointed to confer with the principal European countries in the hope that they might be induced to make similar arrangements with the United States, and to improve commercial and industrial conditions, and in bringing together on common ground those necessary parts of the international relations of capital and labor. Commerce between the nations is steadily growing in volume, and the tendency of the times is toward closer and closer relations. Carefulness is needed to assure Americans the chance to participate to the best advantage in foreign trade; and we must be prepared to meet the new development with justice, and to insure that the new department will justify the creation of its creators by the exercise of this watchfulness, as well as by the broad interpretation of such laws relating to our internal affairs as are intrusted to its care.

In enacting the laws above enumerated, the Congress has based its action on sound principles. Nevertheless, revolution was attempted; but a commanding and successful effort was made in the direction of reaching this result, and it was done in the interest of the honest corporation. The only corporation that has caused to dread it is the corporation which shrinks from the light and abhors the infamy of such corporations. We need not be over-scrupulous. The work of the Department of Commerce and Labor has been conditioned upon this theory, of securing a fair treatment alike for labor and for capital.

CAPITAL AND LABOR.
The consistent policy of the national government, so far as it has the power, is to hold in check the unscrupulous and lawless. While it is the natural bent to refuse to weaken individual initiative or to hamper or cramp the industrial development of the country. We recognize that it is an era of federation and combination, in which great capitalist corporations and labor unions have become factors of tremendous importance in all industrial centers. Heart-rending stories of the far-reaching lawless work which has been accomplished through both corporations and unions, and the line of conduct between them, as between different unions, is drawn as it is drawn on conduct, the effort being to treat both organized capital

and organized labor alike; asking nothing save that the interest of each shall be brought into harmony with that of the general welfare. The need is to devise some system, conforming to the fundamental rules of justice, of individual freedom, and of justice and fair dealing toward all. Whenever a man, an individual, or an organization, or individual disregards the law acts in a spirit of arbitrary and tyrannous interference with the rights of others, or with the administration of justice, or with the administration of law, and where then the Federal government has jurisdiction, it will see to it that the misconduct is stopped, paying no heed to the slight to the position of the corporation, but only to one vital fact—that is, the question whether or not the conduct of the individual or organization is in violation of the law of the land. Every man must be guaranteed his liberty and his right to do as he likes with his property, his wife, his children, so long as he does not infringe the rights of others. No man is above the law and no man below it; nor do we ask any man's favor or protection when we require his obedience to the law. It is demanded as a right; not asked as a right.

NATURALIZATION.
The special investigation of the subject of naturalization under the direction of the Attorney-General, and the consequent prosecutions, reveal a condition of affairs which demands the attention of the Congress. Forgeries and perjuries of shameless and flagrant character have been perpetrated, not only in the various centers of population, but throughout the country; and it is established beyond doubt that very many so-called citizens of the United States have no right to be here. Obeyance to the law is asserting and enjoying the benefits of the same through the grossest frauds. It is never to be forgotten that the citizens of the United States have been so successfully taken to put these principles into effect. The progress has been rapid by evolution, not by revolution. Nothing can be done to stop the action now, but to make it more moderate and more acute. Therefore the work will stand. There shall be no backward step. If the wrongdoing of individuals is irreconcileable, that they shall at any point be exposed or amplified, the amendment to be made as its desirability is determined. Meanwhile, they are being administered with judicious insistence upon obedience to them; and their need has been emphasized in six instances by the events of the past year.

methods of carrying it on. Moreover, lines of cargo ships are of even more importance than fast mail lines; save so far as the latter can be depended upon for finished products, and in war in time of war. The establishment of new lines of cargo ships to South America, to Asia, and elsewhere would be of great interest to our commercial expansion.

IMMIGRATION.

We can not have too much immigration of the eight kinds, and we should have none of all the wrong kind. The need is to devise some system, which will not only be safe, but also will not cut out entirely, while desirable immigrants are properly distributed throughout the country. At present, districts where most immigrants have none; and in others, where the population is entirely congested, immigrants come in such numbers as to demand a higher rate of taxation, to be imposed under the direction of the Attorney-General.

We can not have too much immigration of the eight kinds, and we should have none of all the wrong kind. The need is to devise some system, which will not only be safe, but also will not cut out entirely, while desirable immigrants are properly distributed throughout the country. At present, districts where most immigrants have none; and in others, where the population is entirely congested, immigrants come in such numbers as to demand a higher rate of taxation, to be imposed under the direction of the Attorney-General.

LABOR FOR UNIFORM WAGE SCALE.

Mexican Government Would Protect Native Miners.

Trouble Threatened if Present Arrangement Continues.

Discrimination Charged in Favor of American Labor.

LET DIRECT WIRE TO THE TIMES.

AUSTIN (Tex.) Dec. 7.—[Exclusive Dispatch.] The Mexican government is using all its efforts to have a uniform scale of wages adopted by the mining companies in that country for native miners. The government has informed the large mining companies of West Mexico that they must not pay higher wages to their miners than are paid in other parts of the country.

It is stated that the fact that higher wages are paid in some mining camps of the State of Sonora, particularly at Hermosillo, where the Consolidated Copper Company is operating, than in mining camps in other parts of the country, is due to industrial dissatisfaction, and the government is doing its quiet trouble by proposing a uniform scale of wages throughout the country.

New American miners employed in mines who received higher wages than the Mexicans, have been dismissed during the past few weeks.

RESTAURANTS ARE CLOSED.

LET THE ASSOCIATED PRESS—A.M.

NEW YORK, Dec. 7.—[Exclusive Dispatch.] About 100 restaurants closed their doors yesterday, and it is anticipated that they will not reopen until sometime next week. The cause of the trouble is the strike of Cooks and Waiters' Union is effective.

The proprietors are members of Restaurant Keepers' Association, which yesterday voted to sus-

pend business rather than employ only those they say will remain in the International Association.

There were 1,500 and 2,000 men on strike yesterday. The actual number of restaurants which did not open today is placed at least 1,000, it is asserted that at least others will be closed before night.

LETTERS TO THE TIMES.

The Times greatly publishes the views of correspondents without holding itself responsible for their opinions. We brief, write plain, simply. The space of 20 words is sufficient for the average, is sufficient for the expression of an idea.

For Newboys' Recreation Room.

LOS ANGELES, Dec. 1.—To the Editor of "The Times": Your most excellent personal suggestion, since I suppose you are a correspondent concerning a recreation room for boys, which you should be followed by a result now when other is in the heyday of its natural youth. If such an institution were established at once it would expand by natural growth to meet the greater demands of the metropolis. In that Los Angeles is sure to be. It will be harder to make adequate provision for the little ones than for the street, as the number on the city grows and the number to be taken into memory increased, while, of course, the boys of the present will have only given parents and families with that they have neglected.

A correspondent of The Times wrote the other day about the "Boys' reading room" in New York. There is also a very excellent institution of the kind, the Boston—on Howard street, the cheap theaters, and right in the thick of things. Boys, but not the kind that put up for God—goes, and lots of other reading matter, a gymnasium and a room in which exciting and innocent games are played. No sooner does a boy's common newspaper age are exposed to go directly home—as most of them do, for they are too young to go to school. Their homes are rarely more attractive to them, and these recreation rooms are just the thing to satisfy their longing for society, and the pleasure of meeting in the close of their little businesses, when, with money in their pockets, they would be most susceptible to temptation, and the gathering together of boys in these rooms appreciates this. One never hears of "Beesies" or "Dagges," there, although the newsboy is a common sight in the North and West Ends, in the former of which the ultra-fashionable quarter, live Portuguese, Russian, Poles, etc., all the best English boys, though for the Hebrews who used to crowd in there, to the exclusion of the oncomers of all other nations.

As it goes—and it really goes through the newsboys' reading fills the bill. It is not a lodging-house. For boys who have no homes, or cannot afford to live in the Working boy Home, there is no better place of inmates it is non-sectarian, but is under the sole management of a regular priest of the Catholic Church, and the estate of it is one of the best and most efficient institutions of the kind. The thought of Archbishop Williams having a Boston boy and a very poor boy at that. CARLETON WEST.

Care for Ladies Only.

LOS ANGELES, Dec. 1.—[To the Editor of The Times:] I am smoking in my car. I wish to be served in a restaurant. The children are the most comfortable, and the most pleasant of all the street-car people would do the same. I am sending a card directing to smoking room, and asking if you could make a display sign "For ladies only" each card might be run every time she rides on their cars. I say let smoking be prohibited altogether.

It of two evils, let the least be chosen by all means. And yet, to be deprived of smoking can hardly be called an evil, for the longest most men are dependent upon it, and the better they smoke, the more it is an evil to cause illness, or anguish of mind; so that, the regular smoker has no rights worth speaking of.

We will not dwell upon the inconveniences a lady may be put to on account of the smoker—but it may be well to call attention to the fact that a woman has a right to be protected from the company she rides on their cars. I say let smoking be prohibited altogether.

EDGAR RICHARDSON.

Here's a Second.

PARADEON, Dec. 1.—[Editor of The Times:] I am smoking in my car. I wish to be served in a restaurant. The children are the most comfortable, and the most pleasant of all the street-car people would do the same. I am sending a card directing to smoking room, and asking if you could make a display sign "For ladies only" each card might be run every time she rides on their cars. I say let smoking be prohibited altogether.

R. E. WHEELER.

Los Angeles, Dec. 1.—[To the Editor of The Times:] Count me in for \$10 for a newspaper club, as suggested by E. R. G. Get the books in the library, and the art of writing is not a work. Most of the criminals of the "hold-up" were educated on the street, and after dark. Such a clod would be an ideal neophyte to the "curfew ordinance" which forbids children from being upon the streets after dark attended.

WA

THE CITY IN BRIEF

NEWS AND BUSINESS.

Attorney Admitted.

H. F. Bridges, an attorney of Los Angeles, was admitted to practice yesterday in the United States Circuit Court.

Lost Three Fingers.

While repairing the chain of a motorcycle at his home on East Twenty-eighth street yesterday, Charles Albrecht cut off three fingers in the gearring in such a manner that three fingers were so badly crushed that amputation was necessary.

Pumping Plant Burned.

The pumping plant of the Population Oil Company at Boyle Heights and Boyleton streets was destroyed by fire of unknown origin at 8:35 o'clock last night. The loss will amount to \$500. The engine was not seriously damaged.

Abe Seated.

Abe Vojin, a general merchant of Yuma, Ariz., who is well known to some of the local merchants, has failed, and a receiver has been appointed for him. His liability is over \$3000 and his assets less than \$200. They would have been larger had Abe forgotten to ship a big quantity of the stuff to a relative in San Francisco.

New Court Rules.

Judge Wellborn yesterday appointed L. H. Valentine, W. J. Hunsaker, Lynn Helm and E. H. Owen as a committee to frame rules to govern practice in the Unified State Court. The committee, which will consist of ten members, will have power to make rules, the court procedure having been heretofore conducted by the rules used in other United States Courts.

Six Major Indictments.

The United States grand jury went into the Justice Department's office of the United States Court yesterday morning and made a partial report handing in six indictments. The names of the guilty parties were given out, but none of the cases are sensational; the crimes charged being petty offenses.

Narcotics to be Discussed.

The Los Angeles Federation of the W.P.U. will hold an all-day meeting today at the Christian Church, North Workman street tomorrow. The feature of the afternoon session will be a symposium on the subject of narcotics. Prof. C. H. Clegg will speak from the standpoint of a policeman; William Clever, from that of the citizen; Prof. J. A. Foshay, from the hospital; and Mrs. Florence Porter from the home.

Bad News from Home.

Detective W. H. Kelly, one of the most efficient members of the police department, received a telegram yesterday from Lewistown, Mont., concerning the death of his mother. It announced the death there of his mother, Mrs. O. W. Kelly, aged 62. He had not been previously informed of the mother's illness and the news was entirely unexpected. It will be impossible for him to return to Montana to attend the funeral.

Band Subscription Open.

Subscription lists for tickets to the winter concert of the Los Angeles Band will be opened today at the stores of the Bartlett Music Company, Fitzgerald Music Company, Birkel Music Company, Southern California Music Company and Union Pacific ticket office. The movement is certainly one worthy of support, as if successful, it will give Los Angeles a permanent fine organization of America, and one of the finest in the country.

Child Badly Burned.

Bertha Hasenauer, aged 5, was taken to the Receiving Hospital at noon yesterday suffering from severe severe burns on the head and arms in her home, No. 267 Omar street, she was playing with an old coal oil stove and while she was attempting to light it, she spilled the oil over several of the children. She was the most seriously burned, but her injuries are not such as to require amputation. Some of the other children were burned, but their injuries were treated at their homes.

Investments.

The Title Insurance and Trust Company, as trustee for a local investor, purchased the E. E. Townhouse, 200 Kent, on the northeast corner of Broadway and Ninth street; of Mary Krichen, 40x120 feet just north; and of Dr. S. H. Tolhurst and H. H. Williams, 40x120 feet just south. Just east of these already described, all with frame dwellings of nominal value, computed with the ground. The lots together have a frontage of 120 feet on the two streets.

The aggregate consideration named is something less than \$1000 per front foot, based on the Broadway and Ninth street.

Charles J. Vaughan, 30, a native of England, and Charles G. Steele, and Mabel C. Howell, 29, a native of California, a resident of Los Angeles.

Frederick C. Downes, aged 35, a native of England, a resident of Pasadena, and Regaldo, aged 20, a native of California, a resident of Los Angeles.

BERG—In this city, December 7, 1902, Thomas Berg, late of Gallatin, Mo., a native of Indiana, aged 36 years. Remains will be shipped to New York Tuesday.

CONNELL—In this city, December 4, John Connell, 20, son of Mr. and Mrs. John Connell, from the undertaking parlor of Cunningham & O'Connor, 445-456 South Main street.

COWARD—At Castle, Cal., December 6, Mrs. Childs E. Coleman, a native of California, aged 22 years. Funeral from the Chapel of the Good Shepherd, 1100 South Broadway, Tuesday, December 9, 1902, at 10 o'clock A.M.

GOULD—In this city, December 5, Mrs. Sarah A. Gould, beloved wife of Mr. and Mrs. John Gould, 1620 First Street, and Mrs. Sarah A. Gould, 1620 First Street, Mrs. John Gould, of Dexter Samson Company, 223 South Spring street, Wednesday, December 5, at 1 P.M.

Walter Wash., on the north to Old Mexico, and the Phoenix, Arizona, this engine should place their order now as Mr. Davis leaves shortly for Old Mexico to handle several of their large real estate interests and other business.

hereafter, all real estate and other classified "want" advertisements for Sunday insertion must be in The Times for the first time in October.

Services, 351 South Broadway.

Tressler's new studio, 506½ S. Broadway.

Furs remodeled. D. Bonoff, 212 S. Broadway.

Wealthy Australian Orders Ice to Cool His Bath, Then Swims Chicago River and Wins Wager.

BY DIRECT WIRE TO THE TIMES! CHICAGO, Dec. 7.—(Exclusive Dispatch.) Armed with a paddle with which to ward off ice cakes, Capt. Sidney Hinman, a wealthy Australian, who has made a hobby of nautical

feats, lowered himself into the Chicago River just below Rush-street bridge this noon, and swam with the icy current down to the Madison-street bridge, winning \$500 from George W. Turnbull, contractor, who had bet him he would not dare attempt the feat. Turnbull was a spectator, but a cab awaiting him when he emerged from his icy swim, cheered by an admiring crowd.

"It was good fun, and didn't hurt me a bit," Capt. Hinman said afterward.

The hardy captain caused a commotion Saturday afternoon when he bet Turnbull \$1000 that he could get into the frigid water of the river, even though he had a record of saving twelve lives. Five years ago he saved the life of a wealthy woman who was summering there, and received as a reward a valuable piece of land and \$3000. He has spent the last five years in travel.

DOWNEY.

BRIEFLY. Downey, C. B. Reddick, ex-administrator of Jane Preston Industrial school, is visiting friends here. Dr. Reddick has accepted a call to the pastorate of the First Methodist Episcopal Church of Birmingham, Alabama.

Miss Elma Smith, reader, assisted by Misses Anna Whitehill, editor, gave an entertainment in the A.O.U.W. Hall Saturday evening for the benefit of the Ladies' Aid Society of the Christian Church.

Ex-Supervisor A. E. Davis of Covina and J. W. McKellar and family yesterday.

The revival meetings conducted by Rev. R. W. Lewis at the Cumberland Presbyterian Church are largely attended. Prof. C. C. Landau of Pittsburgh, Pa., is musical director.

THE PUBLIC SERVICE—OFFICIAL DOINGS.

SUMMARY OF THE DAY.

The Council refused to recall the liquor license ordinance yesterday at the behest of the wholesalers dealers, but agreed to the sale by them of liquor in quantities less than five gallons.

Mayor Snyder came out yesterday with the statement that he would vote to give the City Attorney assistance in prosecuting the crib landlords.

A low bid for the Eleventh-street franchise was rejected by the Council yesterday.

Driggs was at work on petitions to the Council to increase the state license to \$350 a month and it was stated yesterday that the attitude of the Council on the wholesale license would not prevent them from invoking the initiative.

Some new policemen were appointed yesterday.

Very few paving bids were presented yesterday to the Council.

Mrs. Driggs' case came to trial yesterday before Judge Smith. She is charged with attempting to coerce a juror.

A boy cigarette seller's mother has come here to insist that he is apt to be sent to State prison.

Levi Biddle and his cohorts have at last been served with the injunction of Judge Allen forbidding the union to keep Seniors on the "fair" list.

In the Police Court yesterday T. Antonio was placed under \$1000 bail after the result of the injuries to F. J. Grace, whom he pushed into an elevator shaft on Saturday.

AT THE CITY HALL.

WHOLESALES WIN PRACTICAL VICTORY.

COUNCIL SAYS THEY CAN SELL LESS THAN FIVE GALLONS.

Spirited Discussion Before the Council Yesterday—Nofziger Raps the Wholesalers and is Scored in Turn by Oscar Lawler—License Problem.

Mayor Snyder signed the ordinance increasing the license on saloons from \$50 to \$75 a month and giving the retailer the right to sell in quantities up to five gallons late yesterday afternoon.

Before he put his signature to the ordinance the Mayor had considered that the measure would not prevent the wholesale liquor dealers from selling in quantities less than five gallons.

"If I had not been convinced of that I would not have signed the ordinance," said the Mayor. "I believe that it would work a great injustice to restrict the wholesaler to sales in quantities greater than five gallons."

Despite the eloquent and logical argument made by Attorney Oscar Lawler, the Council refused to entertain the suggestion that the ordinance be recalled from the Mayor. Whether a political or a business reason prompted this refusal is not mentioned much speculation.

The Counselmen declared that the ordinance did not in any way jeopardize the business of the wholesalers and that they were needlessly alarmed.

Both Bowen and Nofziger, the principal champions of the measure, gave the wholesalers their assurance that if it was found to cover the sale of less than five gallons that they would vote to amend or repeal it.

With that understanding the wholesalers decided to make no further fight against the ordinance. The practical effect of the measure will be to give the saloon men the right to call on the wholesaler to get him to sell in quantities as great as five gallons to those who can afford to pay a valuable street price.

Action was deferred until the afternoon session, and during the noon hour the Council voted to have the franchise granted over Eleventh street.

Five votes are required to award a franchise.

PAVING BIDS.

Very low bids for the paving of Seven streets from San Pedro to Alameda street, were presented to the Council yesterday. The Fairchild, Gilmore Wilton Company made the lowest proposal, offering to pave the street for 14 cents a square foot. Their bid for curving was 28 cents a linear foot; for culverts, \$3.00 a linear foot; gutters, 27 cents a square foot; sidewalk, 10¢ per square foot. The Barker Asphalt Pavement Company, commonly known as the trust, offered to do the paving for 16-4 cents a square foot; curbing, 20 cents a linear foot; gutters, 20 cents a square foot; and culverts \$300 each.

In order to place the city in a proper position for a legal battle the Council passed a resolution yesterday.

"I shall oppose with all my might and strength," began, "the recall of this ordinance from the Mayor. If the Council has taken the action which the wholesalers did when the Council passed the license ordinance we would not have had the funds to run the city. We have done all we could for the wholesalers had redress. Instead they flatly refused to abide by the law—the regularly-enacted laws of this state," said Mr. Cooper.

However, as the Council and the head of the police department have signified that the negotiation they have entered into will not be binding, liable to be arrested for selling in quantities between one-fifth of a gallon and five gallons.

There was some debate over the ordinance at the Council session yesterday morning.

Nofziger got the floor as soon as the debate was over and said he was liable to be arrested for selling in quantities between one-fifth of a gallon and five gallons.

Court & Geddes at Wilcox, Ariz., which has been taken in hand by the Wholesalers' Board of Trade of this city.

The court and general grocery store and its debts are given as \$30,000 and the assets from \$5000 to \$10,000 less. The store and a savings bank were in complete disorder and the man worked out beautifully until several weeks ago, when for some unknown reason the depositors drew about \$12,000 from the bank during one month or so. It was not in the nature of a run and was not noticed by any persons except the banker-grocer-men. When they came to look into the vaults of the bank they found the reason to be that there was not enough money to pay their store bills. For this reason a large number of wholesalers are trying to get themselves together to save as much as they can on their investments.

WOMAN'S CLUBS.

The Ebell.

The Ebell Club has of late been taking a series of tours by a delightful young woman, bringing her audience to Mohamet, through the experiences of those whose intimate acquaintance with foreign lands gives them the right and power to speak thereof.

Tom Lewis, attorney for Hays, was transported, or one might say transplanted, after listening to the lecturer, to Sweden, that wonderful land of the frozen north, which was revealed to a new world by the celebrated Arctic exploration views and the no less striking painting of Prof. R. Baumgardt. Prof. Baumgardt was born in Germany, but went to England, and then to Sweden. Here he grew up and spent his student days at the old college, or University of Stockholm, hence having learned Swedish. He paid his personal recollections, and showed to an intense degree his inborn love and appreciation of the land and the people.

Prof. Baumgardt stated that the people in regard to Sweden. It is the same today as when Gustavus Adolphus, hero of Protestantism, went down into Germany, as the champion of that cause. The people are at the present time said: "The snow being from the poles will melt before the genial sun of Germany." This view is entered upon by the author, and it is based on the light of the actual facts. Sweden is not a land of ice and snow, for the waters of the Gulf Stream temper the climate of the summers are the temperature of all the world. The chief occupation of the people is agriculture, which could hardly be in a frozen zone, and as though by the law of compensation for many hardships imposed on the public mind.

From Lewis' statement, it appears that Hays has made no move

to fear that he will try to go to the hospital and die there.

If there is an scheduled for the evening, Hays has declared emphatically that he will not go to the hospital.

He says, "There'll be some

NEW LAW IN NEW ZEALAND

Government Goes Into Fire Insurance Business.

Powerful Opposition from the Insurance Managers.

The Law Not to go Into Effect Till Next March—Question of Good Management.

WELLINGTON (N. Z.) Nov. 12, 1903.—The Parliament of New Zealand has just decided to enter the business of insurance. The act is on the statute book, and every fire insurance manager is on the warpath. Those managers represent a combined body with a uniform tariff, and a monopoly which has got into the habit of doing what it likes.

The public of New Zealand has demanded for years against these uniform rates and for years they have been refused. Three years ago the government thought it was time to interfere with the power of the State. The result was a bill which proposed to give the government a monopoly of fire insurance, with the option of refusing all the bad business. This looked like a creation. It was never taken a thing of seriously. It was other folks or bluff—nobody cared which. Everybody kicked the bill.

This year a practicable measure was brought down. It proposed to set up a State Fire Insurance Department with a general manager with a board of civil servants, and to start it with \$100,000 (\$50,000) to be borrowed for the purpose; the new department to take its chance just like any other insurance company.

The associated board of the companies immediately began to move by the pressure of rumors that they were to be ruined being ago to a board, but for the marine insurance, which pulled them through. "The uniform tariff is a necessity," said they, "and if the new department won't join the board in keeping the tarif up not a company of the lot will take a single reimbursement from the government." The Colonial Treasurer said he didn't care about them for the reinsurance, which he admitted to be necessary, and both Houses passed the measure.

As the State Fire Insurance Department will not begin life till March, it is yet early to talk of its prospects in anything like business detail. Another capital ticks fallacious, but as the management is empowered to raise another £20,000 (\$10,000) whenever it likes, the reality is in this respect better than the appearance. The public, however, against us in the thin, impoverished blood of little girls of tender years."

STOCK MEN FIGHTING THE TEXAS FEVER.

INTER-COUNTY MEETING HELD IN SANTA BARBARA.

County Association Formed—All Vagrants to be Chained in Gangs and Put to Work on the Roads—Trolley Line to Summerland.

SPECIAL CORRESPONDENCE OF THE TIMES.

SANTA BARBARA, Dec. 7.—Nearly forty stock men from every section of Santa Barbara county met today at the Arlington Hotel to perfect the organization of a county association, to combat the crusade against the Texas fever which has been devastating the herds of the county for years past.

The primary object of organizing the stock men was to enable them to meet as an association with the stockmen of the neighboring states of San Luis Obispo and Ventura counties this afternoon.

The meeting opened with Dr. Blieker,

the State Veterinarian, an temporary chairman, and George T. Coles, manager of the Jalama ranch, temporary secretary. E. S. Sheffield of the city was elected president and A. C. Tallant, secretary. A committee composed of Messrs. Bishop, McKay, E. D. de Questa, Stow and Dr. Blieker was appointed to present the organization to the State Board of Agriculture before the inter-county meeting.

The morning was given over to general discussion among the stock men on the best means of exterminating the fever ticks, and most of those present agreed that the meeting of the stock men was a success.
